What Makes Us?

Welcome to Hedgehogs and Woodpeckers!

Throughout this half term we are going to be learning about ourselves, how we can keep healthy, what is important to us and our local area.

Our Numeracy activities are carefully planned to develop our knowledge of number place and value and we will look into addition and subtraction problems.

'Eat your Greens', 'Goldilocks', 'Oliver's Fruit Salad', 'Funnybones', no-fiction dinosaur books, 'Keep Running, Gingerbread Man', 'Zog and the Flying Doctors' and 'A Day as a Doctor' are the books that will help us understand our new topic.

In science we will be learning about different food groups and why it is important that we eat them. We will extend this into exercise and what activities promote a healthy lifestyle.

Geography and history are taking some of us on a walk to the local shops and to explore Diss Mere. We will look at changes in the school, church and local area.

We will be writing and following instructions to make fruit salads and practising our drawing skills to create colourful pictures of different fruits.

Baptism is our theme for RE, and we will be discussing who and why people are baptised.

PSHE will underpin all we are learning as we set class rules, develop friendships and learn about how our behaviour affects the others around us.

We look forward to getting to know you and please remember, if you have any questions or worries please come in and see us.

*Mrs Clarke, Mrs Davis, Miss Willer
Mrs Mills, Mrs Rush, Mrs Sparke, Mrs Cavanagh*

Headteacher: Mrs S.H. Bradford
Deputy Headteacher: Miss D.K. Stannard
