

# Geography

To be curious about  
the world.

To be aware of how  
different features of the  
earth are interconnected  
and change over time.

To be aware of diverse  
places, people, resources  
and environment.

To understand the  
formation and use of  
landscapes.

To be aware of Earth's  
key physical and human  
processes

# IMPACT

To understand  
interactions between  
physical and human  
processes.
