

Accessibility Plan 2021 – 2024

The staff responsible for the Accessibility Plan are

Mrs S. Bradford

Mrs K. Walsh

The governor responsible for the Accessibility Plan is

The Governor responsible for SEND

Agreed by governors: 13th May 2021

Review Date: May 2022

Purpose of the Plan

The purpose of this plan is to show how Roydon Primary School intends, over time, to increase the accessibility of our school for disabled pupils. We are committed to providing an environment that enables full curriculum access, and that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs.

Aims

Our aims are to:

- Increase access to the curriculum for pupils with a disability;
- Improve and maintain access to the physical environment;
- Improve the delivery of individual curriculums where these are specified.

The table below sets out how the school will achieve these aims.

Definition of Disability

According to the Equality Act 2010, a person has a disability if:

- a) he or she has a physical or mental impairment;
- b) the impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

Legal Background

Under the Equality Act 2010 all schools must have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the DDA. The effect of the laws is the same as in the past, meaning that 'Schools cannot lawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation'.

This plan has been drawn up based upon information supplied by the Local Authority, and in conjunction with pupils, parents, staff and governors of the school and will advise other school planning documents.

This Accessibility Plan sets out the proposals of the Governing Body of our school to increase access to education for disabled pupils in the following three areas:

a) Increasing the extent to which disabled pupils can participate in the school curriculum, which includes teaching and learning, and the wider curriculum of the school, such as participation in after school clubs, leisure and cultural activities or school visits;

- b) Improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services;
- c) Improving the delivery to disabled pupils of information, which is provided in writing for pupils who are not disabled.

Documents and policies

The Accessibility Plan should be read in conjunction with the following school policies, strategies and documents:

- Teaching and Learning Policy
- Equality Objectives and Equal Opportunities and Inclusion Policy
- · School Development Plan
- Health and Safety Policy
- · Special Educational Needs Policy
- · Positive Behaviour Management Policy
- · School Development plan
- · Asset Management Plan
- · Website and Values Tree

Plan Availability

The school makes the Accessibility Plan available in the following ways:

- · a copy is posted on the school's website,
- paper copies are available from the front office.

Review and Evaluation

It is a requirement that our accessibility plan is resourced, implemented, reviewed and revised as necessary, and reported on annually. Below is a set of action plans showing how Roydon Primary School will address the priorities identified in the plan. The plan is valid for three years from 2021. It is reviewed annually.

<u>Curriculum</u>

Increasing the extent to which disabled pupils can participate in the school curriculum, which includes teaching and learning, and the wider curriculum of the school, such as participation in after school clubs, leisure and cultural activities or school visits.

Communication

Improving the delivery of written information to disabled pupils, including planning to make the written information that is normally provided by the school available to disabled pupils and parents.

Current Good Practice	Further Development	Timescale	Lead	Success Criteria
Resources are available to support children with visual impairment, dyslexia, etc., and advice offered by the SENDCo in their suitability and use.	Continue to seek advice from outside agencies (e.g. Educational Psychologist, Access Through Technology) and acquire resources accordingly to meet individual needs.	On-going	KW	All children are able to demonstrate their learning appropriately in all areas of the curriculum, regardless of their needs and disabilities.
Visual aids used in classes to support children with challenges in their understanding and/or sight, e.g. visual timetables/'now and next', emotions cards, activity cards.	All labels in the Infant Department to be accompanied by pictures (e.g. Widget symbols)	Sept. '23	KW	Children can access equipment independently using visual clues.
EHCP reviews are held with parents in person wherever possible. Reinstate SEND workshops with Ed. Psych. for parents (Covid-dependent). Termly SEND newsletters sent to parents of children on SEND register. Reinstate coffee mornings with PSA to discuss parenting issues.	Explore viable ways to hold IEP reviews with parents to ensure that all parties understand targets, provision in place and support available.	April '22	KW	Parents are aware of the ways in which the school supports their child's learning, and are actively involved in supporting their child at home.
Views are sought through annual questionnaires sent to parents of children on the SEND register, and this informs the content of the newsletters.	Brief termly questionnaires on Microsoft Forms will collect parents' views on specific topics. Consultations with children about provision will form part of the SEND calendar.	Dec. '21	KW	Positive feedback on a range of areas of provision is received in school throughout the year.
Weekly Heads Up and half-termly newsletters are written with readability in mind.	All written communication with parents to be written using Arial or Comic Sans fonts. Written communication with parents to be checked as standard using the Flesch Reading Ease test (ideally 60 – 70) and/or Flesch Kincaid Grade Level test (ideally 7.0 – 8.0)	Jan '22 Sept. '23	НТ	Written communication with parents is easily understood by almost all parents.

Google Translate is used in the classroom for children with EAL, and when communicating with parents. Class Dojo is used to communicate with parents and can be translated into 35 different languages.	Investigate a translation aid to be attached to the school's website. Leaflets for parents available in different languages	Sept. '22 April '23	JS	Parents with EAL whose children have SEND can access the school's information about provision for their children.
